LG S04 FIL5406 60100M	60"x100'

Legacy Crystal Clear PET Film is a 10 mil rigid, durable and dimensionally stable plastic with anti-curl properties. Optically clear PET can be folded, sheeted, die cut, grommeted, glued and sewn and is excellent for book jacket overlays, silver backed-mirror imaging, magazine inserts and multi-layer book pages. Excellent chemical, abrasion and temperature resistance.

Part Numbers	Available Sizes
LG S01 FIL2422 .010X57X150C	57"x150'

Legacy CHROME is a metallic (bright silver) surfaced roll-up film that is 100% polyester, 7mil thick and compatible with Solvent, Latex, UV and R Series.

Part Numbers	Available Sizes
LGS04FIL567960100CRM	60"x100"

EARTH FRIENDLY FLOOR MEDIA

Alumigraphics Grip is a textured, aluminum foil material that is printable and can be directly applies to a variety of surfaces including sealed and unsealed concrete, asphalt, brick, tile, terrazzo, marble, and vinyl flooring as well as brick, stucco, cinderblock and other exterior masonry wall surfaces. UL & ASTM classifications. Can be disposed with aluminum recycling.

Part Numbers	Available Sizes
FS AGG075	53"x75'

RATING GUIDE: LOW TO NO VOCs | RECYCLABLE | BIODEGRADABLE | PRE/POST CONSUMER WASTE | PVC FREE

Legacy Crystal Clear PET Removable is a 4.9 mil optically clear polyester film that is reversible, repositionable, and easily removed without residue due to its siliconized removable adhesive. Compatible with Latex L3xx HP Latex (3xx, 5xx, 1500, 3xxx, Rseries) or any UV printer. Excellent gradation and ideal for POP and window displays.

Part Numbers	Available Sizes
LG S01 BL5624 60100G	60"x100'

Legacy Crystal Clear PET Permanent is a 4.9 mil optically clear polyester film that is permanent, but easily removable. Transparent polyester film with transparent self-adhesion. Compatible with Latex L3xx HP Latex (3xx, 5xx, 1500, 3xxx, Rseries) or any UV printer. Excellent gradation and ideal for POP and window displays.

Part Numbers	Available Sizes
LG S01 WIN4233 54100OC	54"x100'

Legacy Crystal Clear Window Film UV is 2 mil optically clear PET Film with 4 mil release liner with an optically clear permanent adhesive. Features anti-scratch coating. UV, Rseries compatible.

Part Numbers	Available Sizes
LG S01 WIN5625 61150OC	61"x150"

Drytac Viziprint Impress Clear UVL is a 4 mil optically clear PET film with proprietary adhesion technology that is protected by a clear, single-side siliconized release liner. Its proprietary adhesion technology creates a strong bond in both high and low temperatures without leaving residue behind, eliminates bubbling and is unaffected by moisture. Can be repositioned and reapplied multiple times, and removes cleanly up to 3 years after installation.

Part Numbers	Available Sizes
DT VPI54098-V2	54"x98'
DT VPI60098-V2	60"x98'

Drytac Viziprint Impress Clear SEL is a 5 mil optically clear PET film with an ink-receptive top coat and proprietary adhesion technology that is protected by a clear, single-side siliconized release liner. Its proprietary adhesion technology creates a strong bond in both high and low temperatures without leaving residue behind, eliminates bubbling and is unaffected by moisture. Can be repositioned and re-applied multiple times, and removes cleanly up to 3 years.

Part Numbers	Available Sizes
DT VPI54098-SELV2	54"x98'
DT VPI60098-SELV2	60"x98'

Drytac Viziprint Impress White SEL is a 5 mil ultra white PET film with proprietary adhesion technology that is protected by a clear, single-side siliconized release liner. Its proprietary adhesion technology creates a strong bond in both high and low temperatures without leaving residue behind, eliminates bubbling and is unaffected by moisture. Can be re-positioned and re-applied multiple times, and removes cleanly up to 3 years after installation.

Part Numbers	Available Sizes
DT VPIW54098-SELV2	54"x98' add 60x98
DT VPIW54328-SELV2	54"x328'

Drytac Viziprint Illuminate is 4 mil high quality, translucent matte PET film that uses a mechanical bond to adhere graphics to glass and other smooth, flat surfaces. With its proprietary adhesion technology, no residue is left behind after removal. Very durable and does not require over lamination. Reverse printable, bright white base color and ability to diffuse light creates brighter, more vivid window images that have a wider color gamut.

Part Numbers	Available Sizes
DT VPIL54098	54"x98'
DT VPIL60098	60"x98'

EARTH FRIENDLY BACKLIT MEDIA

Legacy Universal PET Backlit Matte is a translucent 8.5mil polyester coated backlit film designed for top quality graphic art applications in light boxes with high contrast. Semi-matte coating reduces glare and provides high quality image density, vivid colors and outstanding image resolution with or without light. Compatible with Latex L3xx HP Latex (3xx, 5xx, 1500, 3xxx, Rseries) or any UV printer. Easy to install.

Part Numbers	Available Sizes
LG S01 BL4181 36100M	36"X100'
LG S01 BL4176 54100M	54"X100'
LG S01 BL4180 60100M	60"X100'

EARTH FRIENDLY MAGNET MEDIA

Universal Magnetic Receptive PET is a 12 mil white PET with universal print surface and iron oxide coated backing.

Part Numbers	Available Sizes
LG M02 MAG5638 54100PET	54"x100'
LG M02 MAG5667 60100PET	60"x100'
